

MOTO GUZZI

V100 V100

The Moto Guzzi V100 Mandello is the first motorcycle in the world to incorporate adaptive aerodynamics, which decreases air pressure on the rider by adjusting the position of the deflectors in line with the speed and selected Riding Mode. It also includes an adjustable windshield which is activated by buttons on the handlebar, making for a potential reduction in air pressure of up to 22% and optimising the riding experience in all conditions.
